

## Prerequisites

We Have to perform these step before working on the IBM Cognos , as We are working on our DATASET so, we have to download it and upload it on IBM Cognos.

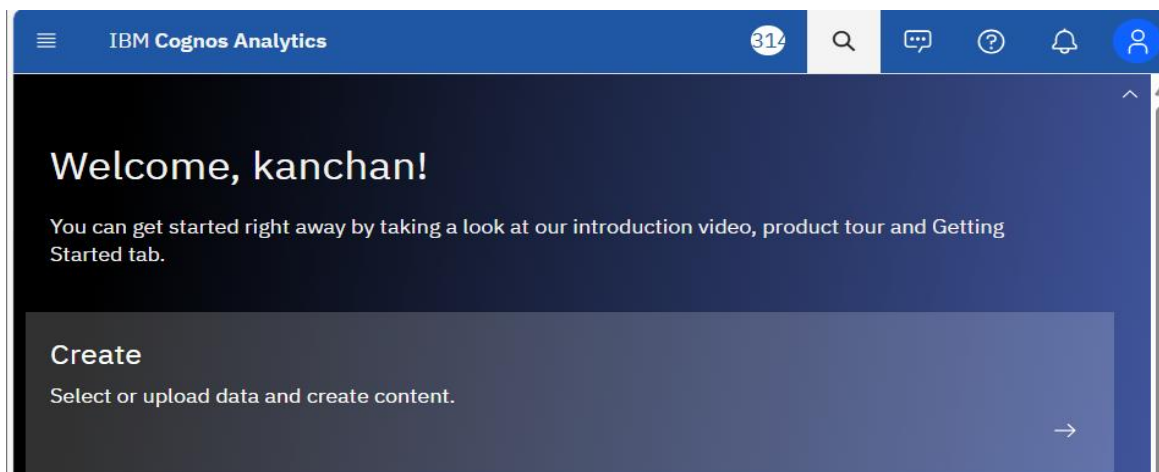

**So , for this task here are the steps to follow. →**

**Step 1:** Search IBM Cognos Analytics sing up or Open IBM Cognos Analytics and sign in to your account then come into the dashboard.

→ **Sign-up or Log-in**

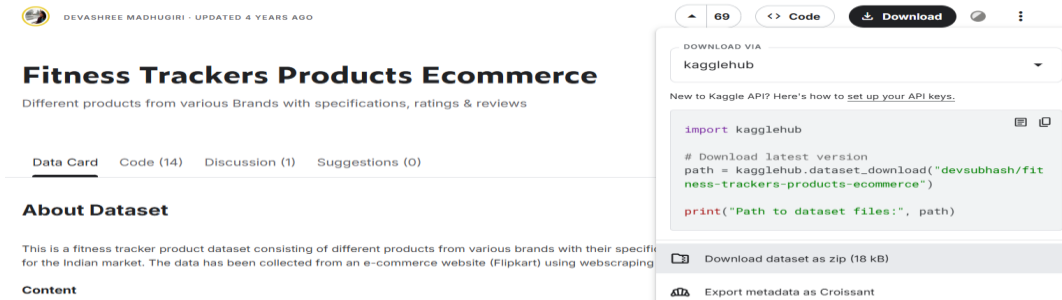

The image shows the IBM login interface. At the top is the IBM logo. Below it, the text "Log in to IBM" is displayed. There is a "Password" label above a password input field which contains masked characters. Below the password field, a small text link says "Logging in as kapnikanchan09@bbdu.ac.in Not you?". At the bottom of the login section is a blue "Log in" button with a right-pointing arrow.

→ Then You will be seeing **Your Dashboard.**

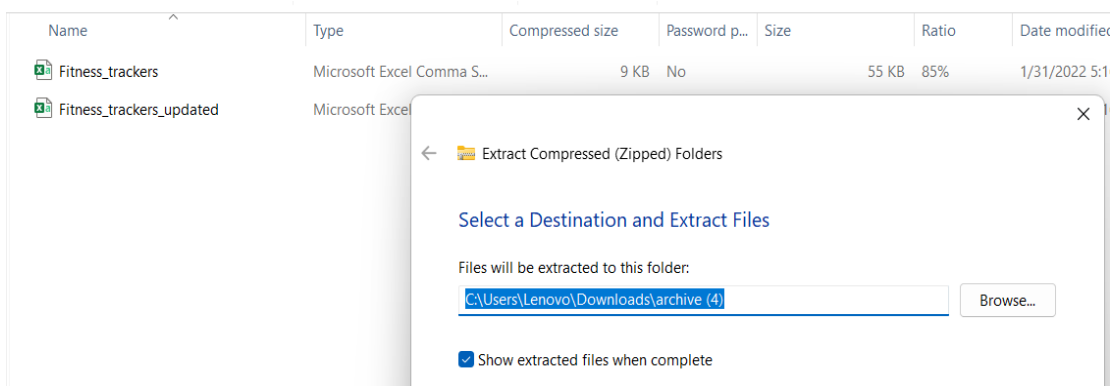

**Step 2:** Since I working on The Dataset Named → **Fitness Trackers Products Ecommerce**

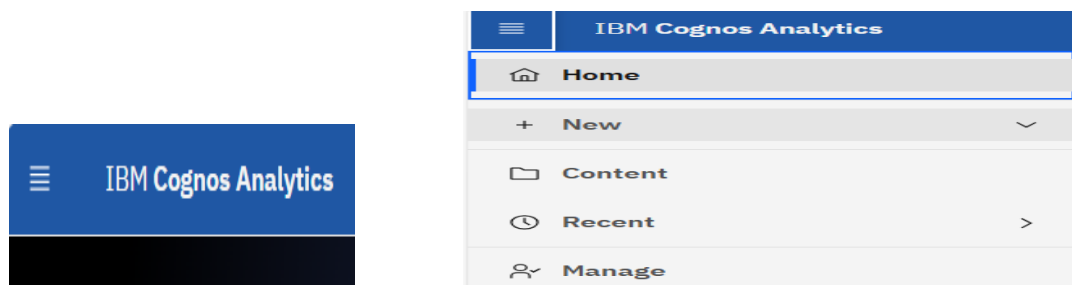

→ Firstly we will be downloading The **Dataset** from Kaggle.

→ Then , we will extract the zip folder . →

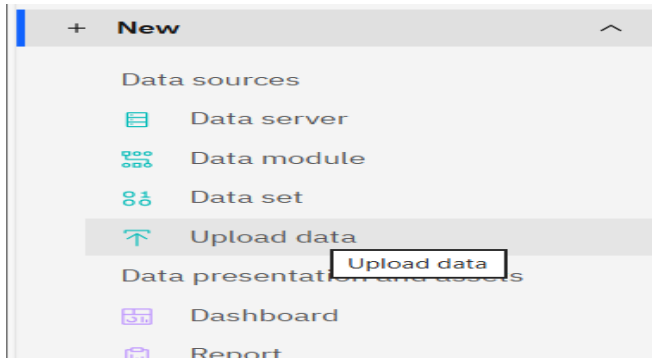

**Step 3:** From the top hamburger menu = click '+ New' → .

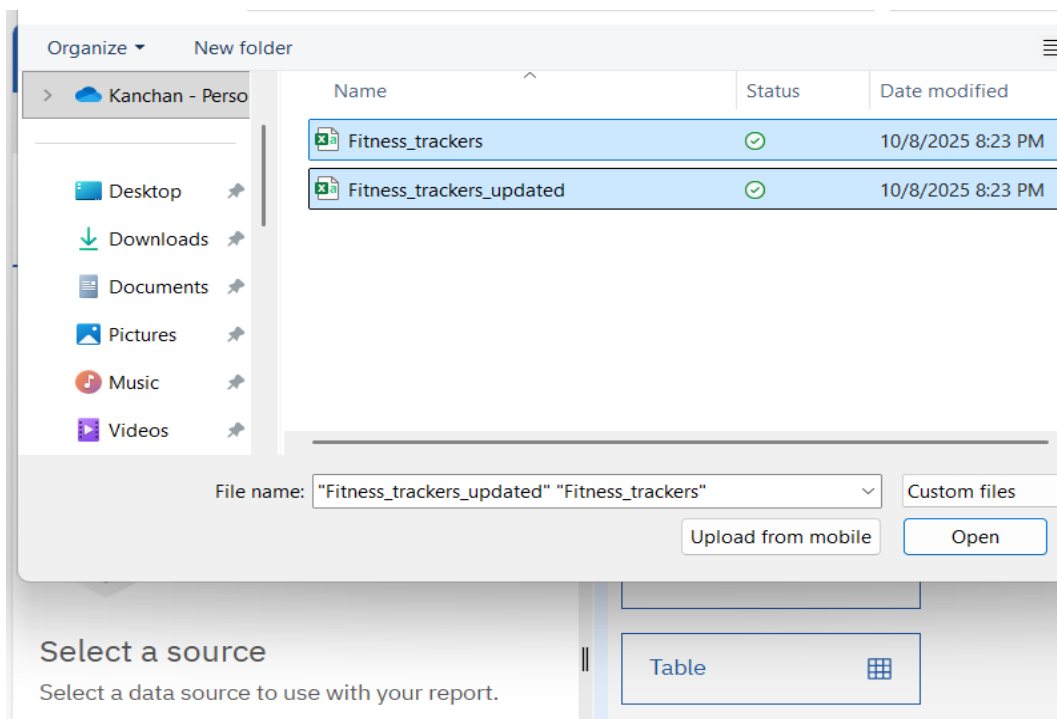

➔ Then , Click on Upload data ,we will upload it, on IBM Cognos.

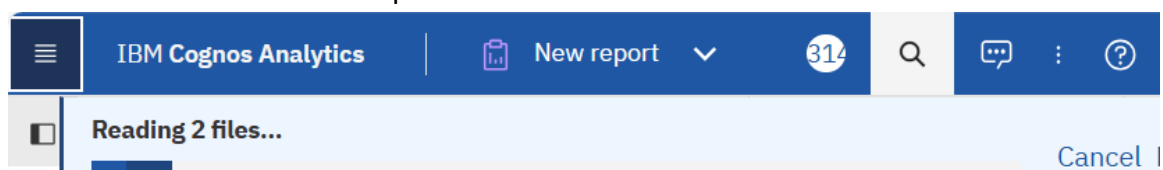

For uploading click ➔ **MENU** ➔ **NEW** ➔ **Upload DATA** ➔

➔ After clicking on the Upload Data Select one then **CTRL + Select rest** of to upload at once.

➔ It will show like this Let The Upload action take it's time➔
